ABOUT ME

My name is MUHAMMAD RIZKI, I am the eldest of 3 siblings from my youth taught by parents to always be independent and take care of younger brother, I always try to keep and give the best for the family.

I am an independent person, when I graduated from high school, I really wanted to continue my education to college, but my family's economic situation did not allow me to pay such huge fee from college. Then I work for a year to raise money to pay for college admission fees. I work in a restaurant as a janitor there. Every payday I set aside some money for my purposes.

I am also a highly dedicated person, to meet the daily needs and the cost of going to campus I sell cakes and snacks on the balcony, every dawn I take the food I will sell on campus from my neighbors. I keep my wares even though there is no college lesson at the time.

but behind it all there are parents who always support and give everything that can be meaningful for my life
